

Walker Partners, LLC has an immediate opening for a Design Engineer in Waco, Texas.

Position Overview:

This engineer in this position will be on a design team that plans and designs municipal infrastructure projects under the supervision of a Client Manager.

The ideal candidate will be a self-starter who has highly technical experience in grading, drainage and utility design. A background in water or wastewater modeling is preferred.

Candidates must have:

- Bachelor's degree in Civil Engineering
- 2-6 years of experience in municipal infrastructure projects
- Highly technical design skills
- Technical experience with water distribution and transmission systems, wastewater collection systems, lift stations, pump stations, and preparing master plans and reports for municipal water and wastewater systems
- Knowledge of associated design criteria
- Experience providing construction management for municipal public works projects
- If licensed, a Texas PE license is required or ability to obtain in six months

Skills Desired: AutoCAD Civil3D, H2ONET

Walker Partners offers excellent benefits including medical insurance, vacation, and sick leave, a Safe Harbor 401(k) plan, a Flexible Spending account plan. Salary is competitive and commensurate with experience.

Walker Partners, LLC is an Equal Opportunity Employer.
